RE: Provost's Report for March
_____

Board of Trustees
At the Board of Trustees Education Committee meeting on Friday, March 1st, Dr. Murli Rajan and Dr. Nabil Tamimi presented the proposal for the new Business Analytics major. The Education Committee unanimously agreed to recommend the program to the full Board of Trustees and the proposal was passed by the full board later that day. I also announced the new Advanced Certificate in Applied Behavioral Analysis that was approved by faculty, but which did not need board approval.

At the Education Committee, I also reviewed the process for curriculum approval so that members understand the faculty process for curriculum approval and their role in the final approval process.

KSOM Dean Search
Three finalist candidates for the position of Dean of the Kania School of Management have been to campus for full-day interviews. We are now gathering the results of the survey. The search committee will meet this week to provide recommendations to me and Fr. Pilarz. We hope to make a decision soon after we receive this recommendation and will continue to communicate with the campus community regarding this outcome.

Faculty Searches
We have successfully completed nine faculty searches and are very excited about the next cohort of incoming faculty.
