"I have just found that a lot of the books, especially dealing with counseling, are very outdated and not new." Sophomore CHS/HAHR

Response:

The Counseling Department selects a substantial number of new books for purchase each year.

"There should be a higher quantity of currently used textbooks." Junior Physics/EE; Computing Sciences

Response:

There are some textbooks in the library's collection but it is not the Library's policy to purchase a copy of all texts that are required for classes. The Library's collection supports research and reading, supplementing required texts. Textbooks are regularly revised so that a collection of texts would become outdated. The loan period is one month. If someone else wanted the book, it could not be renewed. Many students use PALCI to borrow textbooks from other libraries.

"I wish there were options for leisure reading as well." –Junior Social Sciences/Psychology

Response:

Fiction is classified by the Library of Congress scheme so the best way to find leisure reading would be to look up your favorite author. However, since books are selected by academic faculty, authors tend to match those who are course related. Some fiction that is donated to the book sale is added to the collection. There are current paperbacks for 50
