Printing

Positive3

"I find the free prints highly convenient, though." Senior Philosophy/Theology

Negative13

"More free prints please." Senior Exercise/Science/OT/PT

"My bio classis taught completelyout of notes! I spent 10 dollars a chapteron notes, you should have discounts or free prints for classes that use notes as their textbook." Freshman Nursing community Health

Response:

The Library subsidize \$14.00 each semester for students but cannot provide free printing for all things students may want to print. Even with a charge of seven cents a page after the subsidize prints are used, each day many papers are left in the printers and are thrown into recycling bins. The Library contacted the professor in the classes mentioned in the comments to clarify or reduce the printing the seclasses are requiring. The professor indicated that printing the entire manual is not necessary.
